Quiet Sleeper

ENG1 (exp. 2027)

As an RYA Sailing Instructor with three years teaching experience, regularly handling softshell outboard boats in all weather conditions, I can lead safe and fun dinghy sailing activities. With a lifetime of sailing a 29ft Westerly Merlin on The Solent, supported by the Day Skipper and Yachtmaster Offshore Theory qualifications, I am a useful deckhand, proficient with line handling, anchoring, mooring, passage, and pilotage. In addition, I can support off-season maintenance, including antifouling, copper coating, fibreglass repairs, woodworking, and general upkeep.

I have a background in Software Engineering, developing navigation and combat management software for the Royal Navy, supported by a Master of Mathematics (MMath). I have been twice elected a director of the Emsworth Slipper Sailing Club Ltd. During my weekends, I competitively race my RS 700 skiff in Chichester Harbour.

I became determined to pursue a long-term maritime career when asked by Sussex University Sailing Club to be their sole skipper, chartering a 44ft Sun Odyssey 439 in Athens. I am seeking a deckhand role that will give hands-on industry experience, where I can achieve the Yachtmaster Offshore exam and a commercial certification.

SKILLS

- | | | | |
|---------------------|-----------------------|------------------|------------------------|
| • Dinghy Instructor | • Anchoring & Mooring | • Varnishing | • Fibreglass Repairs |
| • Tender Driving | • Passage & Pilotage | • Antifouling | • Cleaning & Polishing |
| • Line Handling | • Woodworking | • Copper Coating | • Tech Support |

QUALIFICATIONS

- | | |
|-------------------------------------|-------------------------------------|
| • STCW 2010 (exp. 2031) | • RYA Dinghy Instructor (exp. 2029) |
| • STCW 2010 Security Awareness | • RYA Powerboat Level 2 |
| • RYA Day Skipper (ICC) (exp. 2029) | • RYA First Aid (exp. 2027) |
| • RYA Yachtmaster Offshore Theory | • RYA Safeguarding Awareness |
| • RYA VHF SRC | • BSAC Ocean Diver |
| • Highfield Level 2 Food Safety | • Master of Mathematics (MMath) |

MARITIME EXPERIENCE

Dinghy Instructor in Chichester Harbour

Mar 2023 - Mar 2026

- Three years dedicating every weekend as a Dinghy Instructor for the Emsworth Slipper Sailing Club.
- Taught all ages and abilities, from novice up to RYA Stage 4 and racing, in conditions up to moderate F4.
- Took initiative with asset maintenance and proactive safety (e.g. foam boom padding, line replacement).

Sailing in The Solent

Ongoing

- Extensive experience sailing a 29ft Westerly Merlin in The Solent, logging 630NM and 8 night hours last year, including solo passages and inter-club racing.
- Practical experience with off-season maintenance, including electrical work, varnishing, antifouling, copper coating, mast lifting, and spectator crowd control.

Sole Charter Skipper

Jun 2024

- Sole skipper for Sussex University Sailing Club, chartering a 44ft Sun Odyssey 439 in Athena, Greece.
- Responsible for daily yacht handling, guest safety, mooring, anchoring, passage, and pilotage.

RS 700 Racing

Jan 2023 - Ongoing

- I repaired an RS 700 skiff to race condition, including fibreglass repairs, pop riveting, and line and block replacement. I now compete against the local sailing clubs in Chichester Harbour.

Director of Emsworth Slipper Sailing Club

Jan 2024 - Mar 2026

- Twice voted as committee member and director of the Emsworth Slipper Sailing Club Ltd.
- Responsible for sailing sub-committee minute taking, and providing a point of contact for members.

PROFESSIONAL SUMMARY

Software Engineer (C++, Rust) BAE Systems

Jan 2023 - Feb 2026
Portsmouth, UK

- Developed real-time navigation and combat management systems for the Royal Navy, contributing to the £285m RECODE modernisation contract for both surface and subsurface platforms.
- Mentored a graduate engineer with no C++ background, ensuring project standards were met on time.
- Proposed and implemented efficient algorithms and data structures to meet requirements, including geospatial indexing and deterministic scheduling for scalable distributed Kubernetes-based systems.
- Applied Model-Based Software Engineering (UML and SysML under the NATO Architecture Framework v4).

Software Engineer (C, C++) Raymarine

Aug 2019 - Aug 2020
Fareham, UK

- Built the Yachtsense Digital Control System UI, increasing my knowledge of maritime electronic equipment.
- Developed SeaTalk (NMEA 2k) message handling between onboard electronic devices.

Computer Repair Technician Emsworth Computer Company (emscom.co.uk)

Jun 2016 - Sep 2018
Emsworth, UK

- Developed robust techniques for Windows system maintenance, including virus removal, system speedup.
- Performed hardware repairs on Apple devices, desktops, and laptop computers.
- Provided friendly advice when advising customers, often needing a tailored description of faults.

EDUCATION

Master of Mathematics (MMath, Distinction) University of Portsmouth

Sep 2016 - Jul 2022
Portsmouth, UK

Masters' Thesis (<https://cloud.robertfry.xyz/s/Thesis2022>)

A CATEGORICAL INTERPRETATION OF KLEINBERG'S IMPOSSIBILITY THEOREM FOR CLUSTERING

HOBBIES

- Racing my RS 700 on weekends in Chichester Harbour.
- Watching SailGP, after seeing it live in Portsmouth 2025.
- Walking and exploring local historical sites, having visited almost every National Heritage site in Hampshire.
- Cooking at home, especially over Christmas when I cook dinner for family.
